

# LAULIMA

**"many hands together"**

He'eia National Estuarine Research Reserve (NERR), in partnership with the Hawai'i Institute of Marine Biology (HIMB), hosts weekly "Laulima" volunteer opportunities for our network, where we gather to lend our hands towards community-based restoration efforts with our partners in the region of He'eia, O'ahu.

**If you are interested in our weekly LAULIMA opportunities, reach out to:**
